

Name : Harshad Sanjay Teli.

Roll No : 15

Batch : B1

Assignment No 4

Image with Image Map.

Q1. Image with Image Map

Insert an image (for example, a world map or campus map) and define **two clickable areas** using `<map>` and `<area>` tags.

Each area should link to a different website or internal page.

Example:

- Click on **India** → opens <https://www.india.gov.in>
- Click on **USA** → opens <https://www.usa.gov>

Input:

```
<!DOCTYPE html>

<html>

<head>

  <title>Image Map Example</title>

</head>

<body>

  <h2>Click on India or USA on the Map</h2>

  <map name="worldmap">

    <area shape="rect"

      coords="530,165,580,230"

      href="https://www.india.gov.in"
```

```
alt="India"

title="Click to go to India.gov.in"

target="_blank">

<area shape="rect"

  coords="100,90,230,190"

  href="https://www.usa.gov"

  alt="USA"

  title="Click to go to USA.gov"

  target="_blank">

</map>

</body>

</html>
```

Output:

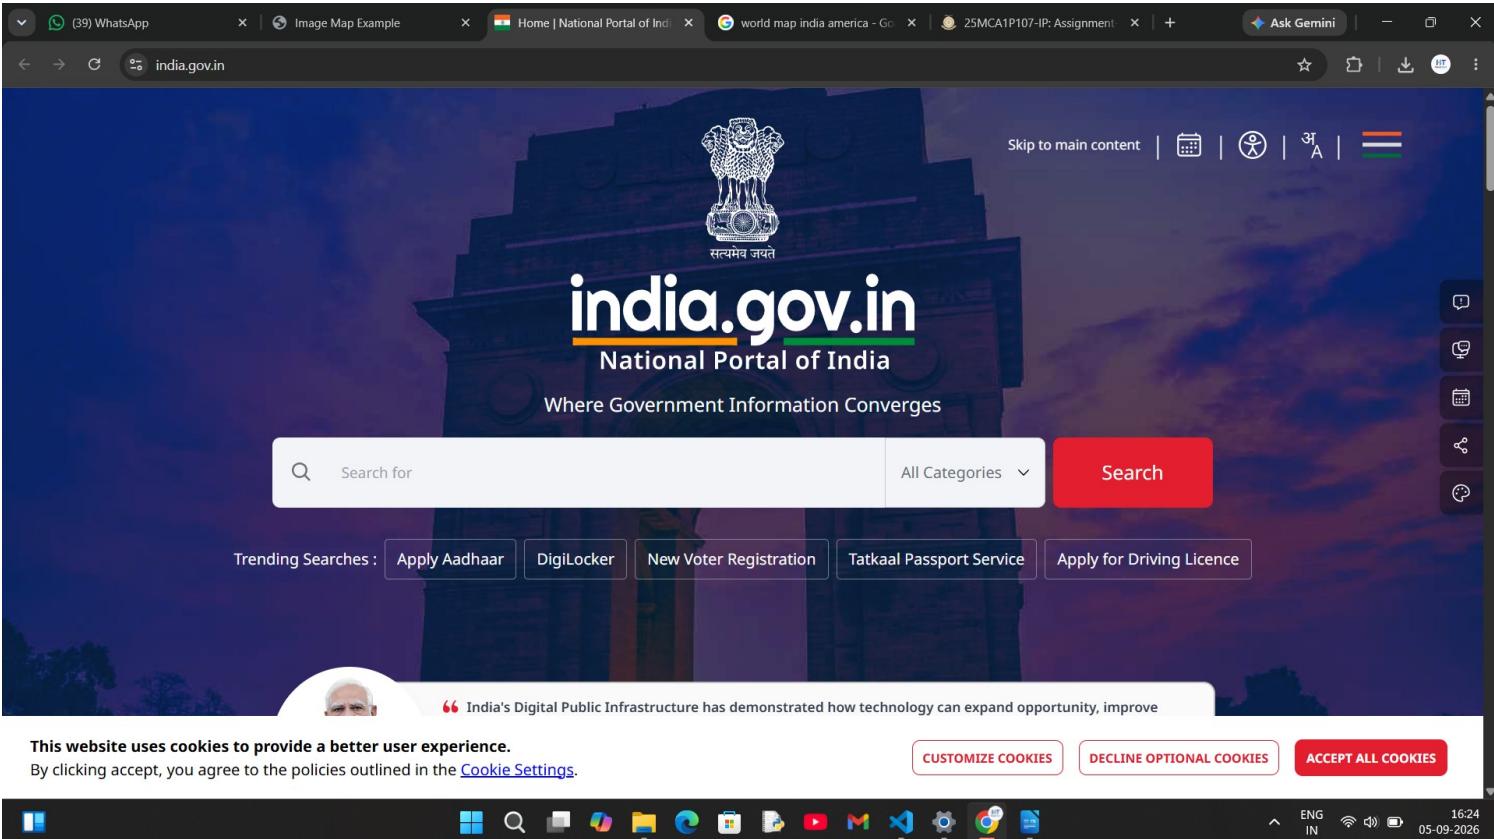

Click on India or USA on the Map

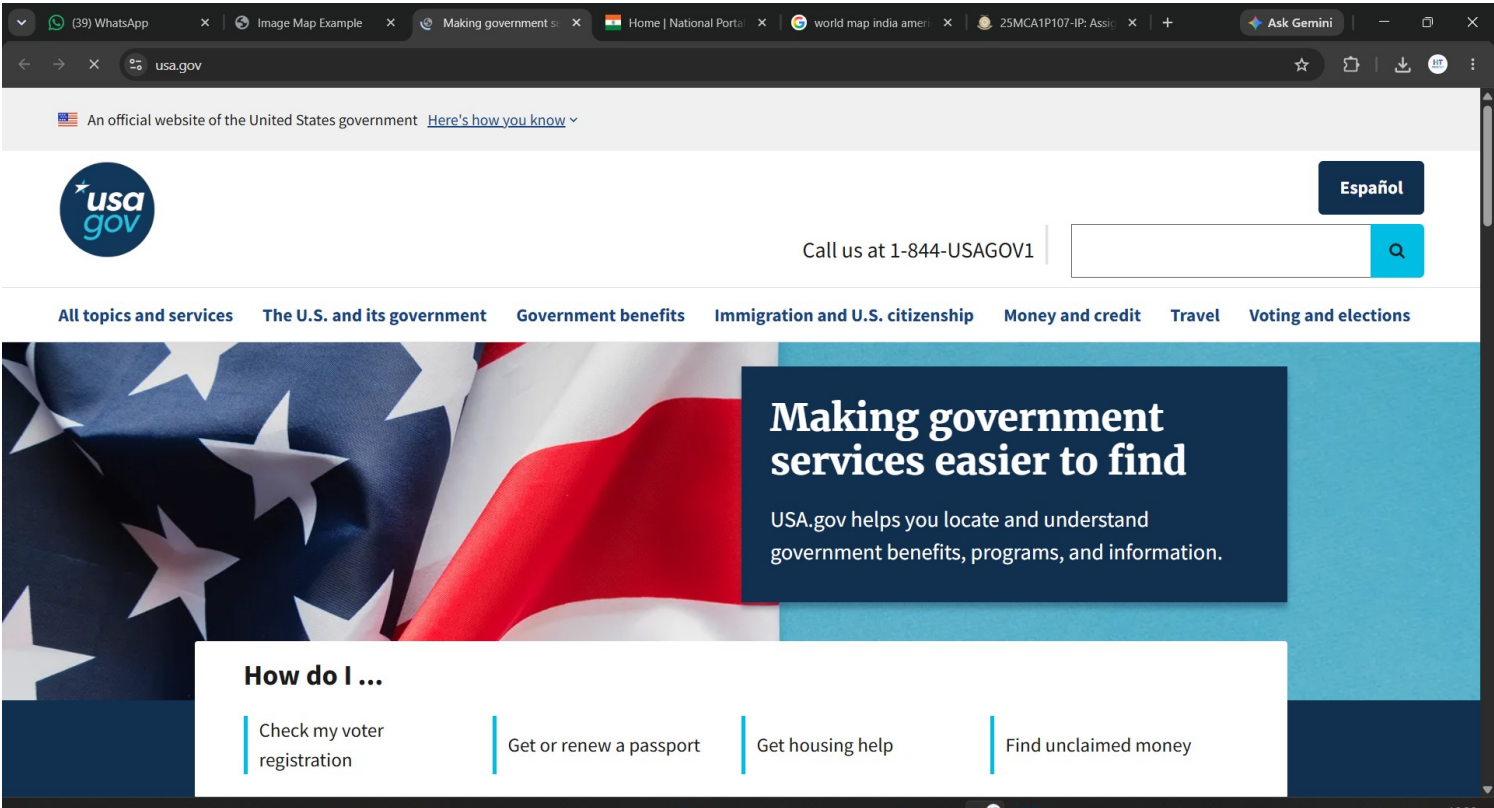

shutterstock.com - 2428470365

When the user click on the India in the above World Map

When the user click on the America then the

Q2. Interactive Flower Garden

Insert an image of a **flower garden** containing different flowers. Using `<map>` and `<area>`, create **three clickable areas**.

Each clickable area should open a different `data:text/html` page containing information about the selected flower.

- Click on **Rose** → display information about Rose.
- Click on **Sunflower** → display information about Sunflower.
- Click on **Jasmine** → display information about Jasmine.

Input:

```
<!DOCTYPE html>

<html>

<head>

  <title>Garden Image Map</title>

</head>

<body>

  <h2>Click on Flowers in the Garden</h2>

  <map name="flowermap">

    <!-- 1. Rose -->

    <area shape="rect"
      coords="50,50,250,300"
      href="data:text/html;charset=utf-8,%3Ch1%3EF0%9F%8C%B9%20Rose%3C%2Fh1%3E%3Cp%3E%3Cb%3EScientific%20Name%3A%3C%2Fb%3E%20Rosa%3Cbr%3E%3Cb%3EFamily%3A%3C%2Fb%3E%20Rosaceae%3Cbr%3E%3Cb%3EKnown%20as%20the%20King%20of%20Flowers."
    />

  </map>

</body>

</html>
```

%20Symbol%20of%20love%20and%20beauty.

%20Used%20for%20perfume%20and%20rose%20water.%3C%2Fp%3E"

alt="Rose"

title="Click for Rose Info"

```

```
</body>
```

```
</html>
```

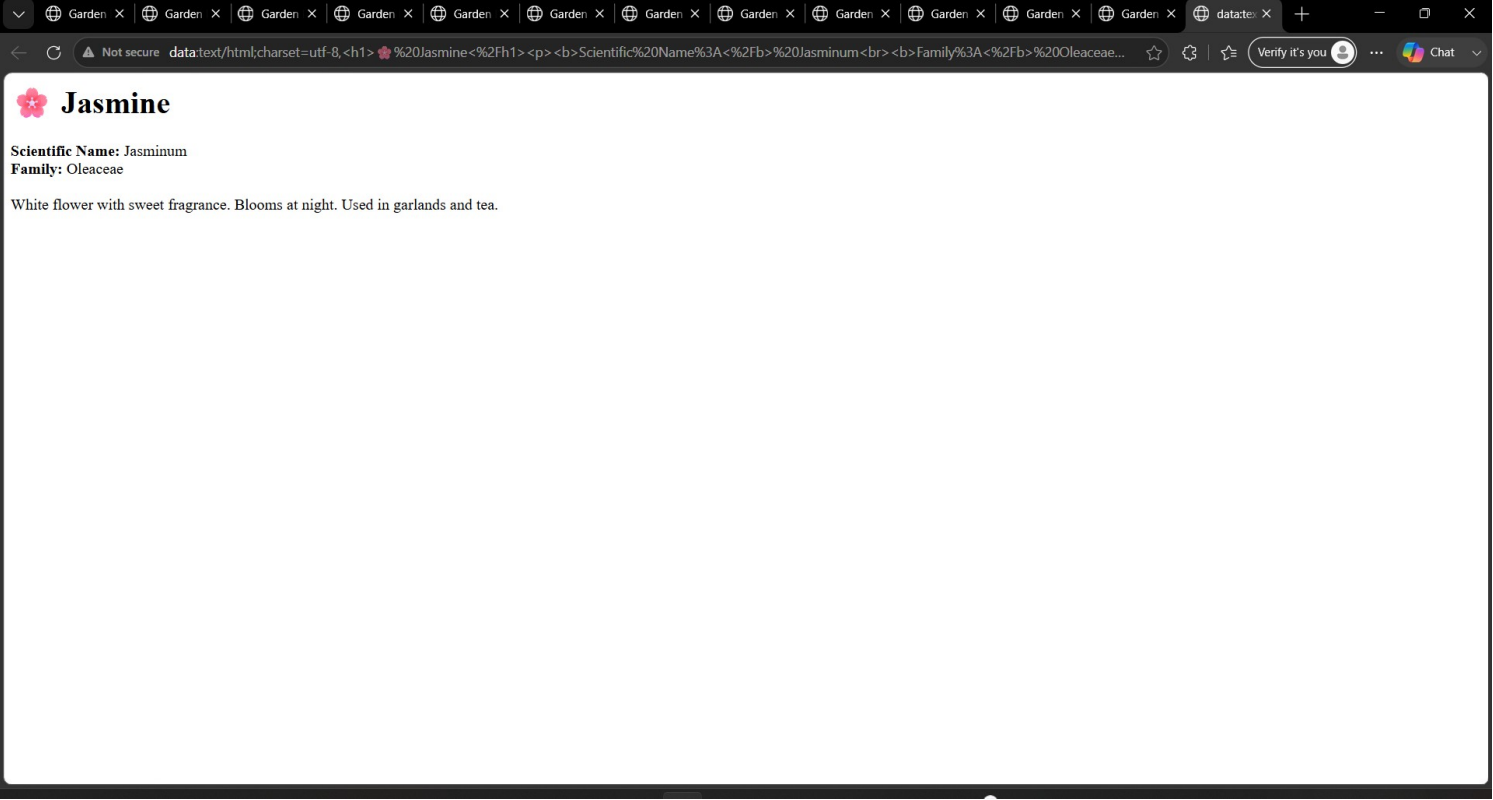

When we click on the Rose then the following information will be c

Rose

Scientific Name: Rosa
Family: Rosaceae

Known as the King of Flowers. Symbol of love and beauty. Used for perfume and rose water.

Q3. Interactive Vehicle Image

Insert an image containing different **vehicles**, such as a Car, Bus, and Motorcycle.

Define two clickable areas using `<map>` and `<area>`.

- Click on **Car** → display its basic features and uses.
- Click on **Motorcycle** → display its basic features and uses.

Use `data:text/html` to display the information.

Input:

```
<!DOCTYPE html>

<html>

<head>

    <title>Interactive Vehicle Image</title>
```

```
</head>
```

```
<body>
```

```
<h2>My Garage - Click on Car or Motorcycle</h2>
```

```

```

```
<map name="vehiclemap">
```

```
<area shape="rect"
```

```
coords="98,315,450,770"
```

```

commuting in city traffic</li><li>Low fuel cost and easy
parking</li><li>Thrill and adventure riding</li></ul></body>

alt="Motorcycle"

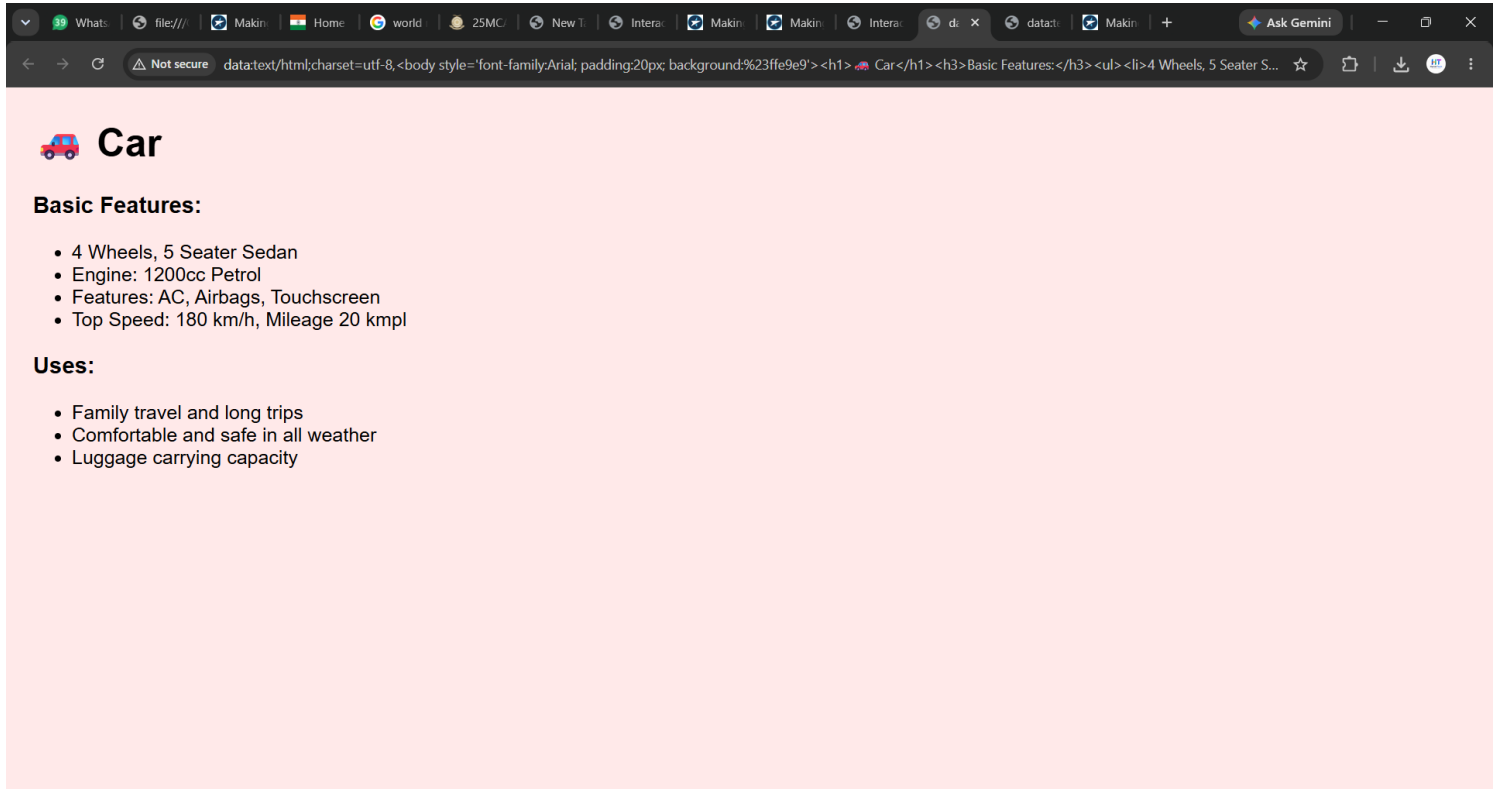

title="Click for Motorcycle Info"
```

My Garage - Click on Car or Motorcycle

When the User click on the car then to display the information:

Whne the user click on the Bike then the show information

Motorcycle

Basic Features:

- 2 Wheels, 2 Seater Sports Bike
- Engine: 150cc-300cc Petrol
- Features: Disc Brakes, LED Headlights
- Top Speed: 140 km/h, Mileage 45 kmpl

Uses:

- Fast commuting in city traffic
- Low fuel cost and easy parking
- Thrill and adventure riding

Q4. Student Registration Form

Create a **Student Registration Form** using basic HTML form elements. The form should contain the following fields:

- **Student Name** – Text box
- **Password** – Password input
- **Email ID** – Email input
- **Age** – Number input
- **Date of Birth** – Date input
- **Gender** – Radio buttons (Male/Female/Other)
- **Hobbies** – Checkboxes (Reading, Sports, Music)
- **Upload Photo** – File input
- **Favorite Color** – Color input
- **Submit** button
- **Reset** button

Use appropriate `<label>`, `<input>`, and `<form>` tags. Do not use CSS or JavaScript.

Input:

```
<!DOCTYPE html>

<html>

<head>

  <title>Student Registration Form</title>

</head>

<body>

<h2>Student Registration Form</h2>

<form>

  <label for="name">Student Name:</label>

  <input type="text" name="sname"><br><br>

  <label for="password">Password:</label>

  <input type="password" name="password"><br><br>

  <label for="email">Email ID:</label>
```

```
<input type="email" name="email"><br><br>
```

```
<label for="age">Age:</label>
```

```
<input type="number" name="age"><br><br>
```

```
<label for="date">DOB:</label>
```

```
<input type="date" name="dob"><br><br>
```

```
<label for="gender">Gender:</label>
```

```
<input type="radio" name="gender" value="Male"> Male
```

```
<input type="radio" name="gender" value="Female"> Female
```

```
<input type="radio" name="gender" value="Other"> Other
```

```
<br><br>
```

```
<label for="hobbies">Hobbies:</label>
```

```
<input type="checkbox" name="hobby1" value="Reading"> Reading
```

```
<input type="checkbox" name="hobby2" value="Sports"> Sports
```

```
<input type="checkbox" name="hobby3" value="Music"> Music
```

```
<br><br>
```

```
<label for="photo">Upload Photo:</label>
```

```
<input type="file" name="photo"><br><br>
```

```
<label for="favcolor">Favorite Color:</label>
```

```
<input type="color" name="favcolor"><br><br>
```

```
<input type="submit" value="Submit">
```

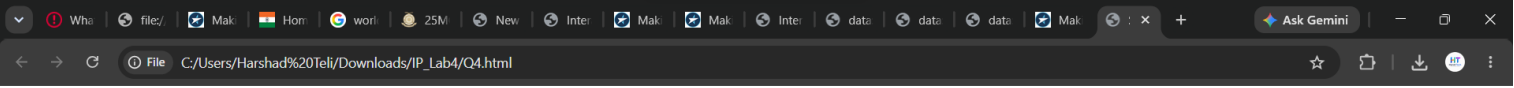

```
<input type="reset" value="Reset">
```

```
</form>

</body>

</html>
```

Output:

Student Registration Form

Student Name:

Password:

Email ID:

Age:

DOB: 

Gender: ☐ Male ☐ Female ☐ Other

Hobbies: ☐ Reading ☐ Sports ☐ Music

Upload Photo: No file chosen

Favorite Color:

Q5. Online Course Registration Form

Create an **Online Course Registration Form** using only HTML form elements. The form should contain:

Full Name – Text box

Username – Text box

Password – Password input

Email – Email input

Mobile Number – Number input

Date of Birth – Date input

Gender – Radio buttons (Male/Female)

Select Course – Checkboxes (HTML, CSS, JavaScript, Python)

Upload Certificate – File input

Preferred Color – Color input

Submit Form button

Reset Form button

Use suitable HTML input types for each field. **Do not use CSS or JavaScript.**

Input:

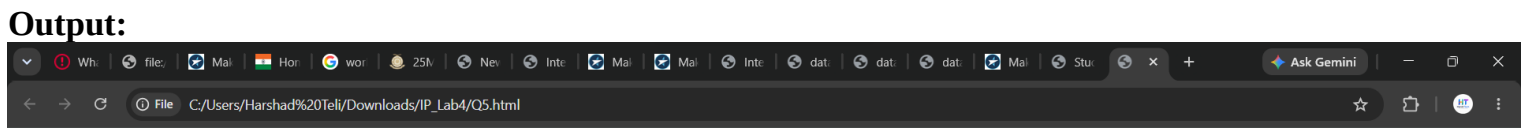

```
<!DOCTYPE html>
<html lang="en">

<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <h2>Online Course Registration Form</h2>
  <form action="">
    <label for="fname">Full Name:</label>
    <input type="text"><br>
    <label for="uname">User Name:</label>
    <input type="text"><br>
    <label for="password">Password:</label>
    <input type="password"><br>
    <label for="email">Email:</label>
    <input type="email"><br>
    <label for="mnumber">Mobile Number:</label>
    <input type="number"><br>
    <label for="dob">DOB:</label>
    <input type="date"><br>
```

```
<label for="gender">Gender:</label>
<input type="radio" name="Male" value="Male">Male
<input type="radio" name="Female" value="Female">Female<br>
<label for="courses">Select Courses:</label>
<input type="checkbox" name="HTML" value="HTML">HTML
<input type="checkbox" name="CSS" value="CSS">CSS
<input type="checkbox" name="JAVASCRIPT" value="JAVASCRIPT">JAVASCRIPT
<br><label for="certificate">Upload Certificate:</label>
<input type="file"><br>
<input type="color"><br>
<input type="submit" value="Submit">
<input type="Reset" value="Reset">
</form>
</body>
</html>
```

Online Course Registration Form

Full Name:

User Name:

Password:

Email:

Mobile Number:

DOB:

Gender: ☐ Male ☐ Female

Select Courses: ☐ HTML ☐ CSS ☐ JAVASCRIPT

Upload Certificate: No file chosen

Q6. Importing Audio and Video

- Insert an audio file using the <audio> tag with controls and autoplay.
- Insert a video file using the <video> tag with controls and width/height set.

Input:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Audio and Video Tags</title>
</head>
<body>
  <audio controls>
    <source src="harsh.mpeg" type="audio/mp3">
  </audio>
  <video controls muted autoplay loop width="320" height="240">
    <source src="dyptemsih.mp4" type="video/mp4">
  </video>
</body>
</html>
```

Output:
