

Name : Harshad Sanjay Teli.

Roll No : 15

Batch : B1

Assignment No 1

List Orders Example

Q1) Create a new HTML file named assignment1.html.

Write the basic structure of an HTML page.

Inside the page:

- Add a title (e.g., "My First Webpage").
- Add a main heading (h1) with your name.
- Add a subheading (h2) with your class and college name.
- Write a short paragraph (4–5 lines) about yourself.
- Create an unordered list of your hobbies.

Create an order list of your Favourite Subjects.

Input:

```
<!DOCTYPE html>
<head>
<title>My First Web Page</title>
<meta property="description" content="Practical on the Internet
Programming To create the
My First Web Page" />
<meta property="author" content="Harshad Teli, MCA-I DYPSEM,Roll No:15"
/>
<style>
body{
background-color:black;
color:whitesmoke;
}
body h1{
animation: head 1s linear infinite;
}
@keyframes head{

}60%,80%{
color:orange;
}80%,100%{
```

```
color:indianred;
}
body h3{
color:whitesmoke;
}
</style>
</head>
<body>
<header>
<marquee scrollamount="10">
<h1>Harshad Sanjay Teli</h1>
</marquee>
<h2>College Name: DY Patil Education Society<br>
    Class : MCA - I </h2><br>
<p>Hii.. I am Harshad Teli, A passionate Software Developer from the
India and also
interested in the learning the New Technology.I am also Solve Real
World Problems and much more...</p>
</header>
<div>
<h3>My Hobbies</h3>
<ol>
<li>Drawing</li><li>Gaming</li><li>Eating</li><li>Reading</li>
</ol>
<h3>My Favourite Subjects</h3>
<ul>
<li>AI/ML</li><li>JAVA</li><li>PYTHON<li>C</li><li>C++</li>

</body>
</html>
```

Output:

Q2) Daily Routine Webpage

- Create a webpage that shows your daily routine.
- Use an ordered list () to display the sequence of activities (e.g., Wake up → Breakfast → College → Study → Sleep).
- Also, include an unordered list () of things you like to do in your free time.

Input:

```
<!DOCTYPE html>
<head>
<title>My Daily Routine</title>
<meta property="description" content="Practical on the Internet
Programming To create the
Daily Routine Page " />
<meta property="author" content="Harshad Teli, MCA-I DYPSEM, Roll No:15"
/>
<style>
body{
background-color:black;
color:whitesmoke;
}
body h1{
animation: head 1s linear infinite;
}
@keyframes head{
0%,20%{
color:red;
}20%,40%{
color:pink;
}
40%,60%{

}60%,80%{
color:orange;
}80%,100%{
color:indianred;
}
body h3{
color:whitesmoke;
}
</style>
</head>
<body>
<header>
<marquee scrollamount="10">
<h1>My Daily Routine Web Page</h1>
</marquee>
<h2>My Daily Sequence Tasks </h2><br>
<ol>
```

```
<li>Wake
Up</li><li>BreakFast</li><li>College</li><li>Study</li><li>Sleep</li>
</ol>
<h2>My Things in the Free Time </h2><br>
<ul>
<li>Sing the Song</li><li>Thing about the new technology</li><li>About
the Food</li><li>Extra Activites about the Learning and Study</li>

</header>
</body>
</html>
```

Output:

Q3) Favourite Foods Webpage

- Create a webpage about your favorite foods.
- Use an unordered list () to display your favorite dishes.
 - Use an ordered list () to write the steps of how to prepare one dish (simple steps only).

Input:

```
<!DOCTYPE html>
<head>
<title>My Favourite Food Page</title>
